## BACKGROUND

The Islamic Centre for Development of Trade (I.C.D.T) is a subsidiary organ of the Organisation of Islamic Cooperation (O.I.C) in charge of Trade Promotion between Islamic Countries. ICDT was mandated by the Secretary General of the O.I.C and the Standing Committee for Economic and Commercial Cooperation for Islamic Countries (COMCEC) to follow up, in collaboration with the Group of the Islamic Development Bank, on the multilateral trade negotiations organised by the World Trade Organisation (W.T.O) and extend support, provide relevant training and technical assistance to the OIC Member States in this field. Within this framework, I.C.D.T submits on a regular basis, progress reports on these negotiations to the COMCEC annual meetings, the Islamic Commission for Economic, Cultural and Social Affairs of the O.I.C and the Council of the Foreign Affairs Ministers (CFM).

Likewise, ICDT produces reports and studies in preparation of the WTO Ministerial Meetings in order to shed light on the positions of Islamic Countries at these meetings and identify a common platform to coordinate their positions.

Besides, the Centre organizes seminars and workshops on the Multilateral Trade Negotiations for the benefit of the representatives of the OIC Member States from both the public and private sectors and on intra-OIC trade negotiations.

- This report is divided into three sections:
  - ✓ Section I: Recent developments of the WTO activities relating to the OIC Member States;
  - ✓ Section II: ICDT activities in the field of the WTO;
  - ✓ Section III: Status of accession negotiations to WTO of OIC Member States.

## SECTION I:

### REPORT ON ICDT PARTICIPATION IN WORLD TRADE ORGANIZATION (WTO) ELEVENTH MINISTERIAL CONFERENCE

Buenos Aires, Argentina, 10 - 13 December 2017.

ICDT participated in the WTO Eleventh Ministerial Conference (WTO MC11) which was held during the period 10-13 December 2017 in Buenos Aires, Argentina. ICDT delegation was composed of Dr. El Hassane Hzaine Director General and Dr. Mokhtar Warida Assistant Director General.

ICDT participated in the WTO MC 11 in its capacity as a special guest of the Chair of the Conference and after receiving an official invitation in this respect from Minister of Foreign Affairs of Argentina (Chair of the Conference) in light of ICDT mandate in trade and trade related investment issues in the Organization of Islamic Cooperation.

Participants in the MC11 reached around 4,000 ministers, senior trade officials and other delegates from the WTO's 164 members and observers as well as representatives from civil society, business and the global media.

It should be noted that the Republic of Kyrgyzstan will host the 12<sup>th</sup> Ministerial Conference of WTO in Astana in 2019.

#### *I. Consultative Ministerial Coordination Meeting for OIC Member States:*

ICDT participated in the Consultative Ministerial Coordination Meeting for OIC Member States which was held on 9 December 2017 after receiving an official invitation from the President of IDB.

The meeting was organized by IDB Group (Cooperation and Integration Department and ITFC) and aimed at exchanging views on important issues before MC11 and IDB action plan for 2018 - 2019 in WTO related matters. The meeting was chaired by Minister of Trade and Industry of the Arab Republic of Egypt and attended by about 40 OIC Member States.

During the meeting, ICDT raised the following important issues:

- ICDT Role in Providing Technical Assistance and Capacity Building for OIC Member States in WTO Related Matters.
- COMCEC decision requesting ICDT to submit, in collaboration with IDB Group, a working paper for the consideration of the next COMCEC Meeting about practical options to increase OIC Ministers of Trade coordination vis-à-vis recent developments in the negotiations at the WTO and to formulate positions on priority issues for OIC countries in the current Doha Development Round and on new issues currently being proposed in the WTO.
- COMCEC decision mandating ICDT and IDB to continue providing technical assistance to the OIC Member States on WTO - related issues and to enhance their efforts in sensitizing the Member States to the impact of WTO trade negotiations on their economies, and requested IDB and ICDT to synergize and coordinate their efforts to strengthen the human and institutional capacities of the OIC Member States, so as to facilitate their full integration into the multilateral trading system on an equitable and fair basis.

In implementation of COMCEC decisions, the following activities are suggested for Joint ICDT – IDB implementation:

- Seminar for OIC Member States on outcome of MC11;
- To prepare a study for enhanced OIC coordination on WTO matters and to organize a High Level Expert Group Meeting for OIC Member States to discuss the draft study including practical options to increase OIC Ministers of Trade coordination.
- Workshop on OIC Member States priorities and interests towards key new issues and developments in WTO (Investment Facilitation, Micro and Medium Sized Enterprises and E-commerce).
- Workshop to support key OIC Member States in their WTO accession process: During the Meeting, OIC Member States, requested to receive technical assistance and capacity building regarding WTO accession process and other WTO issues, especially new issues (Investment facilitation, Micro and Medium Sized Enterprises and E-commerce). In addition, OIC Member States emphasized the importance of expediting the operationalization of TPS-OIC.

## ***II. Key substantive issues before WTO MC11:***

MC11 took place amidst increasing and unprecedented pressure and challenges before the Multilateral Trading System. On one hand, United States criticized the work of the organization and demanded serious reforms. In addition, United States gradually reduced its engagement in the work of the organization and conducted major review for the future. On the other hand, WTO member states could not agree before the conference on a draft ministerial declaration to chart the future work of the organization during the next two years. The Chair of the General Council stated in the MC11 opening ceremony that the General Council could not agree on a single recommendation to the Ministers.

In response to United States President’s criticism of WTO, the Presidents of Argentina, Brazil, Uruguay and Paraguay issued during MC11 opening ceremony a Presidential Declaration in support of WTO and its guardianship of the Multilateral Trading System. The Declaration was supported by representatives of Colombia, Guyana, Mexico, Peru and Suriname, who also signed the declaration at the conference's opening ceremony.

In addition, Ministers from 44 WTO members issued a joint statement on 11 December underlining their support for the WTO and reaffirming the “centrality” of the rules-based multilateral trading system.

Key issues before the conference included: agriculture, development, fisheries subsidies, domestic regulation of services, and electronic commerce. Five Ministerial Facilitators were requested to lead consultations and negotiations with regard to the issues of Agriculture, Development, E-commerce, Investment Facilitation and Micro Enterprises.

## ***III. Key Results of WTO MC11:***

- WTO Member States did not succeed in reaching consensus on a Ministerial Declaration for the Conference, neither on specific decisions on key issues like agriculture, food security, services and development. However, the conference witnessed the following key results:
  - Ministerial decision on fisheries subsidies which delivers on Sustainable Development Goal 14.6 by the end of 2019. Under the ministerial decision on fisheries subsidies, members agreed to continue to engage constructively in the fisheries subsidies negotiations with a view to adopting an agreement by the next Ministerial Conference

in 2019 on comprehensive and effective disciplines that prohibit certain forms of fisheries subsidies that contribute to overcapacity and overfishing, and eliminate subsidies that contribute to illegal, unreported and unregulated fishing.

- Ministerial Decision to extend the practice of not imposing customs duties on electronic transmissions for another two years.
- Ministerial Decision on Work Programme on Electronic Commerce.
- Ministerial Decision on TRIPS non-violation and situation complaints.
- Ministerial Decision on Work Programme on Small Economies.
- Creation of the working group on accession for South Sudan.

- No agreement was possible in a number of the substantive issues that were under discussion at the conference. One key area where no agreement was possible was public stockholding for food security purposes. Many members regretted that this was not possible despite the mandate to conclude negotiations at MC11. Other issues under the agricultural negotiations pillar also were not concluded.

- Ministers expressed their disappointment over the lack of progress, and gave their commitment to continuing to move forward on the negotiations related to all remaining relevant issues, including to advance work on the three pillars of agriculture (domestic support, market access and export competition) as well as non-agricultural market access, services, development, TRIPS, rules, and trade and environment.

- Three proponent groups announced new initiatives to advance talks at the WTO on the issues of electronic commerce, investment facilitation and micro, small and medium size enterprises (MSMEs):

- Firstly, Joint Ministerial Statement by Seventy-one members said they would initiate exploratory work towards future WTO negotiations on trade-related aspects of electronic commerce, with participation open to all WTO members. Proponents said a first meeting will be held in the first quarter of 2018. The group accounts for around 77 per cent of global trade.
- Secondly, Joint Ministerial Statement on investment facilitation by 70 WTO members, recognizing the links between investment, trade and development, announced plans to pursue structured discussions with the aim of developing a multilateral framework on investment facilitation. The proponents, who account for around 73 per cent of trade and 66 per cent of inward foreign direct investment (FDI), agreed to meet early in 2018 to discuss how to organize outreach activities and structured discussions on this topic.
- Thirdly, Joint Ministerial Declaration on the Establishment of a WTO Informal Work Programme for MSMEs by 87 WTO members accounting for around 78 per cent of world exports declaring their intention to create, multilaterally, an Informal Working Group on MSMEs at the WTO that would be open to all members. The discussion would address obstacles related to foreign trade operations that represent a significant burden for MSMEs interested in participating in international trade.
- For the first time in the history of the World Trade Organization, WTO members and observers have endorsed a collective initiative to increase the participation of women in trade. In order to help women reach their full potential in the world economy, 118 WTO members and observers agreed to support the Buenos Aires Declaration on Women and Trade, which seeks to remove barriers to, and foster, women's economic empowerment.

- Main sideline events:

- Holding a Business Forum on the sideline of the MC11 for the first time in the history of WTO in order to increase engagement with business and private sector.
- Launch of WTO-ITC Joint Portal for Cotton, an on-line platform for market intelligence for cotton products, which will enable cotton producers, traders and policymakers to better harness market opportunities in the sector.
- Launch of WTO-ITC-UNCTAD Global Trade Help Desk which will serve as a Single Window for businesses and policymakers to access trade data and practical information on target markets.

- **RECENT DEVELOPMENTS OF THE WTO NEGOTIATIONS:**

- The World Trade Organization intensified its preparations for the 11<sup>th</sup> Ministerial Conference (MC11) which will be held in Buenos Aires 10-13 December 2017. In this regard, around thirty five countries held an informal Mini-Ministerial meeting in Marrakech, Kingdom of Morocco on 9-10 October 2017, which helped fix a road map towards the maximum chances for success in Buenos Aires Ministerial Conference.
- The Meeting reaffirmed the participating Member States' commitment to an open and equitable multilateral trading system which can adapt to the international economic environment and takes account of interests of WTO members.
- The meeting also affirmed the importance of implementing the results of Nairobi Ministerial Conference and the Bali Ministerial Conference and exploring the means of advancing the negotiations to harness the results of these two conferences for the benefit of Buenos Aires Ministerial conference.
- Many countries emphasised the importance of development as a central theme of discussion. They also underlined the need to integrate developing countries, in particular LDC in the multilateral trading system. While there is divergence regarding the ambitions and priorities, it is important to stay realist in searching for the concrete and equitable results and being open to new approaches to arrive to them.
- Also, the meeting discussed a realistic and equitable package in Buenos Aires which should include advanced concrete issues related to development and clear perspectives concerning the new issues regarding the changing international economic environment.
- The participating countries have also discussed the importance of Special and Differential Treatment as an integral part of all WTO agreements and future multilateral results, in a way to be efficient concerning the implementation plan and allowing developing countries, in particular LDCs, to respond effectively to their development needs.
- The countries have recognized the importance of agriculture which remain at heart of the agenda for many countries. The Case of cotton was underlined by many African countries, especially LDCs.
- The ministers welcomed the negotiating efforts regarding fisheries subsidies and called for marinating the negotiations with a view to making them successful in Buenos Aires.
- The ministers also reaffirmed the importance of Services which contribute strongly to the growth of international economy. The culmination of this negotiation is important for WTO Members.
- Regarding new issues, especially E-commerce, countries discussed how it can assist the economic growth in developing countries and LDCs and achieving structural transformation of their economies. The countries have also acknowledged the digital divide and gaps in infrastructures, technological, juridical and institutional capacities that developing countries face and which represent major constraints for them to reap the benefits of e-commerce. Therefore, countries asked to continue the discussion concerning the proposed regulations of e-commerce to better understand the implications, the challenges and the interests, and

making pertinent responses that take into consideration all interest of members.

- The ministers also called for continuing the negotiations in Geneva in a manner that is open, inclusive and transparent for all members with a view to reaching concrete and equitable results. It has been recommended to hold regular meetings at senior officials' level in order ensure the follow up of these recommendations and ensuring the success of Buenos Aires Ministerial meeting.
- It should be recalled that The World Trade Organization continued its post - 10<sup>th</sup> Ministerial Conference (MC10) in Nairobi, Kenya, during the period 15-19 December 2015. The meeting adopted the "Nairobi Package", a series of six Ministerial Decisions on agriculture, cotton and issues related to least-developed countries. In addition, a Ministerial Declaration outlining the Package and the future work of the WTO was also adopted.
- The Chairman of the Trade Negotiations Committee delivered its report on the status of negotiations on 27 July 2016. In this report, the Chairman informed that there are signs that WTO Members are gradually moving towards a more proposals-driven process. Members have submitted a number of papers. In agriculture, for example, seven papers have been submitted with ideas and queries on a range of issues, including Domestic Support. Also, there is some positive engagement in Services, though less in NAMA. Fisheries subsidies continue to draw much attention. Looking at the Doha Development Agenda issues overall, the Chairman emphasized that if WTO Members want to move forward, so there is a need to significantly deepen the discussions in the months ahead to see if there is any potential for outcomes. And in all of these conversations, there is need to maintain and enhance the focus on development and LDC issues.
- It is also recalled that MC10 has adopted the following decisions:
  - ♦ Work program on small economies.
  - ♦ TRIPS non-violations and situation complaints.
  - ♦ Work program on electronic commerce.
  - ♦ The Transition Period under Article 66.1 of the TRIPS Agreement for least-developed countries for certain obligations with respect to pharmaceutical products as well as the related Waiver Decision adopted by the General Council concerning least-developed countries' obligations under Article 70.8 and 70.9 of the TRIPS Agreement.
- With regard to Doha Development Agenda, MC10 has adopted the following decisions:
  - ♦ Special Safeguard Mechanism for Developing Countries in the area of Agriculture.
  - ♦ Public Stockholding for Food Security Purposes.
  - ♦ Export Competition in the area of Agriculture.
  - ♦ Cotton.
  - ♦ Preferential Rules of Origin for Least-Developed Countries.
  - ♦ Implementation of Preferential Treatment in Favour of Services and Service Suppliers of Least - Developed Countries and Increasing LDC Participation in Services Trade.
- The MC10 witnessed differences of views among WTO Members regarding the future Doha Development negotiations. While many Members reaffirmed the Doha Development Agenda, and the Declarations and Decisions adopted at Doha and at the Ministerial conferences held since; other Members did not reaffirm the Doha mandates, as they believed new approaches were necessary to achieve meaningful outcomes in the multilateral negotiations. However, Members expressed strong commitment to advance negotiations on the remaining Doha issues, including all the pillars of agriculture, non-agriculture market access, services, development, TRIPS and rules. Ministers also agreed that officials should work to find ways to advance negotiations and requested the WTO Director-General to report regularly to the General Council on these efforts.

### SECTION III

## STATUS OF ACCESSION NEGOTIATIONS TO WTO OF OIC MEMBER STATES

The total number of the WTO Member reached 164 countries with the accession of the Islamic Republic of Afghanistan during the 10<sup>th</sup> WTO Ministerial Conference. Currently, 44 WTO Member States are OIC Members, that is to say more than the quarter of the WTO Members. The WTO Member States account for about 97% of the world economy.

The current number of the OIC Member States that have applied for accession to the WTO is 11, these are: Algeria, Azerbaijan, Iraq, Iran, Lebanon, Libya, Uzbekistan, Sudan, Syria, Comoros and Somalia. The current status of WTO accessions is as follows:

- Working Party established for Libya, Syria and Somalia.
- Memorandum on the Foreign Trade Regime submitted by Iran, Iraq and Uzbekistan.
- Factual Summary of Points Raised circulated by Sudan.
- On-going bilateral market access negotiations on goods by Algeria, Azerbaijan, Lebanon, Sudan and Uzbekistan.
- On-going bilateral market access negotiations on services by Algeria, Azerbaijan, Lebanon, Sudan and Uzbekistan.
- Draft Report of the Working group circulated by Algeria, Azerbaijan and Lebanon.

The activities related to the accession of Comoros, Sudan and Somalia have intensified especially during the second half of 2016. For example:

- the Comorian team has worked intensively, held two Working Party meetings, and last month, concluded several bilateral market access negotiations. And now, they are very focused to conclude their accession in the coming months.
- Sudan started a conversation about its reactivation, again, here in Nairobi on the margins of MC10. Half year later, in July last year, Sudan officially announced the reactivation of its accession process to the entire WTO membership at a meeting of the General Council. This was followed by an intensive work of updating their documentation. This year, Sudan had two Working Party meetings to register concrete progress, and concluded two bilateral market access negotiations so far.
- Somalia is one of the latest applicants to start the accession process in December 2016 after its application letter was first submitted during Nairobi MC10. Somalia is working on the Memorandum on its Foreign Trade Regime, which will be the base document to kick off the accession negotiations.
- Azerbaijan told WTO members at an accession working party meeting on 28 July 2017 that it intended to “concentrate on the bilaterals” as well as implement the legal reforms necessary to bring the domestic trading regime in line with WTO requirements. Azerbaijan had undertaken a number of reforms over the past six months, including adopting 12 “strategic roadmaps” for the development of the country’s economy as well as regulations covering trade facilitation and the improvement of trade and logistic infrastructure. Implementation of the roadmaps by 2020 would serve as a “foundation” towards successful accession to the WTO.

The WTO accessions take place on the interrelated pathways multilateral, plurilateral and bilateral negotiations. Some processes have made significant progress in 2013, while others have not progressed as expected due to various factors, including further negotiations with

Members, technical complexities, internal difficulties and choices.

Significant technical work has been undertaken on several accessions. Thus, the combination of technical assistance and outreach activities of the Secretariat is essential to help Members and acceding governments in their negotiations and better understand the effects and results of accession mean for the future of the Organization. In this regard, the contributions of the Chairmen of working groups were vital. It should be noted that technical assistance benefitted from the financial contribution of the following countries: Australia, Brazil, China, the United States, India and the European Union (EU) and its individual Member States.

➤ **TRANSPARENCY OF THE ACCESSION PROCESS:**

Transparency and predictability of the accession process remain key priorities for Members and the WTO Secretariat. In 2013, measures and initiatives for transparency taken over the last four years have continued to be implemented and strengthened.

Thus, the informal group of accessions (GIA) meet regularly. Consultations focused on the following questions: i) sharing and exchange of information on accessions with Members; ii) Secretariat's reports on technical developments in the accession process; iii) reports from the Chairs of the Working Groups to Members on the results of their visits to the countries; iv) planning of meetings on accession and related activities based on the progressive calendar of meetings on accession proposed by the Secretariat; and v) response to specific concerns raised by Members and acceding governments .

The information on WTO accessions Bulletin aims at providing to acceding governments, the Presidents and Members, a summary report of the meetings of the GIA. It also contains useful information on the operational level to help prepare the meetings and negotiations on accession.

The practice of meetings with various groups of WTO Members has intensified to focus on specific issues and concerns of each group. The overall objective is to report to the Members on activities during the calendar year, for their comments and raise concerns to be considered. The Secretariat may meet with the Advisory Group of LDCs, the informal group of developing countries, the Asian Group in developing countries, GRULAC, the African Group and the Arab Group. During these meetings, it informed the group of the status of accessions, reported on its activities, exchanged views on the responsibilities of neighbouring /regional groups, considered the concerns rose by acceding governments and Members, and consulted its interlocutors on technical priorities for accession in 2014.

➤ **TECHNICAL ASSISTANCE AND AWARENESS-RAISING:**

Technical assistance and capacity building related to accession are focused on the training of government officials. They also include awareness-raising activities intended to Members of Parliament, the private sector, university circles, civil society and the media. Technical assistance and capacity building activities include the following: i) national seminars; ii) sessions on the accessions during the advanced trade policy courses, regional courses and introductory courses for LDCs; iii) workshops; iv) technical missions; v) visits by the Chairmen of the working groups; vi) the creation or strengthening of centres of reference of the WTO; vii) online training; viii) dialogue with groups of WTO Members; and ix) participation in conferences.

## ➤ TOOLS FOR THE ACCESSION:

WTO has launched in July 2016 new Accessions Intelligence Portal which provides improved access to information on WTO accessions and many new features, such as direct access to all notified legislation for completed accession. The portal is available at: <https://www.wto.org/accessions>.

Database commitments under the accessions (ACDB): Database on commitments within the accessions (ACDB) was launched in May 2012. It gives access to all the commitments and related information contained in the reports of the working groups of the accession and accession protocols of 31 Members under Article XII MC (<http://acdb.wto.org>).

### 1. Algeria:

With an observer status since 1987, Algeria officially submitted to the WTO a report on its foreign trade regime in June 1996. The submission of this report represented the first step in the membership procedure in this organisation.

The working group on the accession of Algeria, which is chaired by M.C Perez Del Castillo (Uruguay), numbers 43 countries.

Since then, some WTO Member States, such as the United States, the EU, Switzerland, Japan and Australia, sent a series of questions to Algeria. The answers were sent to the WTO secretariat and a first meeting of the working group on the accession of Algeria to the WTO was held in Geneva in April 1998.

Algeria held five rounds of multilateral negotiations (April 1998, February 2002, May 2002 then November 2002 and May 2003, in 2004 and 2005) and two rounds of bilateral negotiations in the agricultural, industrial and services sectors (April 2002 and November 2002). The examined subjects are: agriculture, customs system, State trade, transparency and legal system reform and TRIPS.

With respect to bilateral meetings, Algeria has met about ten countries; these are: the United States, Japan, Switzerland, Australia, Canada, the European Union, Cuba, Uruguay, Turkey and the Republic of Korea.

Algeria submitted initial offers concerning goods and services in March 2002 and revised offers were distributed on 18<sup>th</sup> January 2005. The revised elements of a draft report of the working group and the latest new facts concerning the legislation were also examined during the meeting of the working group on 25<sup>th</sup> February 2005.

The 9<sup>th</sup> meeting of the working group in charge of the accession of Algeria to the WTO took place on October 21<sup>st</sup> 2005 at the headquarters of the WTO.

The agenda items of this meeting dealt with the progress of bilateral negotiations relating to market access, the consideration of the draft report of the working group and the new development of the Algerian legislation.

The working group in charge of the accession of Algeria to the WTO is currently tackling a document entitled "draft report of the working group on the accession of Algeria to the WTO". This document will comprise the main issues that will be discussed at the meeting of 21<sup>st</sup> October 2005.

Besides, on the sidelines of the 9<sup>th</sup> meeting of the working group, bilateral meetings were held during the period going from 18<sup>th</sup> to 20<sup>th</sup> October 2005 with the representatives of some WTO Members, particularly with the United States, Switzerland, New Zealand and Malaysia within the framework of the resumption of talks relating to the market access of

commodities and services.

The Bilateral Negotiations in the field of market access are underway on the basis of revised offers concerning goods and services. The multilateral review on the foreign trade regime is underway and a revised draft report of the Working Party was circulated in June 2006.

**On 17 January 2008, members reviewed the revised draft Working Party report:**

The Working Party report describes Algeria's foreign trade regime and the reforms undertaken in recent years to bring Algeria's legal and institutional framework into compliance with WTO rules. Members also evaluated the progress made in the ongoing bilateral negotiations on market access for goods and services.

Members have acknowledged Algeria's progress in reforming its trade regime in order to be fully compatible with WTO rules. Algeria has passed new legislation on Technical barriers to trade (TBT); sanitary and phytosanitary (SPS) issues; intellectual property (TRIPS); antidumping, safeguards and countervailing measures; pricing policies; customs valuation; importation of pharmaceuticals products; exports of beef, sheep and palm trees.

The Algeria's Working Group revised an offer on specific commitments in services and was circulated in February 2012.

The long march of Algeria for its accession to the WTO is explained also by the will of the Algerian government to lead, first, internal reforms, to successfully upgrade some areas likely to be threatened by competition and to achieve a diversification of its economy. A roadmap to accelerate the negotiation process of Algeria's accession to the WTO was developed and a series of bilateral talks to resolve differences and finalize agreements is planned between March and April in addition to the holding of an informal meeting with the Working Group on the accession of Algeria to the organization, in anticipation of the formal meeting to be held in June 2012.

**Bilateral negotiations on market access of goods and services:**

Algeria has completed negotiations with Brazil, Uruguay, Cuba, Venezuela and Switzerland. It still needs to conclude negotiations with the EU, Canada, Malaysia, Turkey, the Republic of Korea, Ecuador, the USA, Norway, Australia and Japan.

The tenth meeting of the working Group took place in January 2008.

Additionally, five bilateral agreements were signed by Algeria within the framework of the negotiations process for its accession to the World Trade Organisation (WTO) on 28<sup>th</sup> February 2012 with Brazil, Cuba, Venezuela and Argentina. Negotiations on the conclusion of a similar agreement with the EU, main trading partner of the United States have reached an advanced stage.

Negotiations for the signature with the other WTO Member States are still undergoing and Algeria is on the verge of concluding an agreement with Switzerland, Australia and New Zealand, while talks with Japan, Canada, Malaysia, Turkey and Ukraine are progressing well. The long progression of Algeria towards its accession to the WTO reflects the will of the Algerian government to conduct, first, internal reforms, successfully upgrade some areas that might be threatened by competition and achieve a diversification of its economy.

The eleventh meeting of the Working Group was held on 5 April 2013 in the presence of the Minister of Trade, Mr. Mustapha Benbada. On this occasion, Algeria introduced for consideration by the working group twelve documents relating to revised offers for goods

and services, the revised legislative action plan and proposals for amendments, supplements and updating of the draft report of the group. The representatives of China, the United States, India, Japan, Norway, Pakistan, Kyrgyzstan, Switzerland, Turkey and the European Union welcomed the contributions presented by Azerbaijan and expressed support for the accession of the country.

The Secretariat was entrusted with developing the documentation by drawing up a draft report of the Working Group on the factual summary of raised points. Four Bilateral Agreements were deposited at the WTO Secretariat (United Arab Emirates, Oman, Kyrgyzstan and Turkey). The eleventh meeting of the Working Group took place on 21<sup>st</sup> February 2014.

HE Mr. Shahin Mustafayev, Minister of the Economy and Chairman of the Interministerial Commission in charge of preparing Azerbaijan's accession to the WTO; (ii) HE Mr. Rufat Mammadov, newly appointed Deputy Minister of the Economy; (iii) HE Mr. Mahmud Mammad-Guliyev, Deputy Minister of Foreign Affairs and Chief Negotiator on WTO Accession; and (iv) Mr. Ziyad Samadzadeh, Chairman of the Milli Majlis (Parliament) Economic Policy Committee.

The meetings confirmed the broad support for Azerbaijan's accession to the WTO. The Accession is seen as a fundamental element in unlocking Azerbaijan's economic potential, especially given its role as a logistical and transit hub linking Asian and European markets. The meetings also helped to better define Azerbaijan's policy priorities in terms of policies, the domestic dynamics of the accession process and some of the difficulties related to this process. Azerbaijan is currently carefully examining the measures to be taken within the framework of the accession process. In addition, Azerbaijan is also preparing updated negotiating documents for the Working group, including its replies to questions from Members during the last meeting held in July 2017.

### 11. Syria:

The Syrian Arab Republic's Working Party was established on 4 May 2010. The Working Party has not yet met.

### Conclusion:

Although WTO membership provides clear benefits, accession negotiations pose a challenge for all acceding governments, especially LDCs. The terms and conditions of accession impose internal reforms. Acceding LDCs have limited technical and human capacity and financial resources to deal with the complexities of WTO accession.

Providing technical assistance to the governments of the acceding countries, is a key priority of OIC and WTO. Technical assistance, capacity building and awareness-raising activities related to accessions are organized by the Accessions Division.
